

SOULMATE COSMOLOGY

(ETERNAL EVOLUTION OF THE SPIRIT)

Dr. Henry and Erika Monteith
(www.soulmatecosmology.com)

*In the final analysis, there is only one virtue—the love of
Pure Learning; and all else is but procrastination and
dissipation in the eyes of the One who awaits our
evolutionary awakenings.*

Orfeo Angelucci (1)

PART 1

INTRODUCTION

In this series of articles, we will be discussing the evolution of the human spirit, a process that is far from trivial, eternal in its implications, and which lies at the causal foundations of Cosmic Creation. Truly, the Physical Cosmos is the Action Stage upon which the human spirit is evolving from the Darkness of Ignorance to the Light of Cosmic Awareness. By generating uncountable incarnations for itself in the animal domain of existence, which is characterized by the ‘survival of the fittest’ under the domination of gross and perverted animal emotions, it evolves in awareness by learning through the agony and the ecstasy of life’s experiences. Indeed, for the Spirit, the deeper that sorrow carves into its ‘being’, the more Joy it can contain and the glory of Eternal Life can only be appreciated with respect to the sublime reference that is established by its illusionary experience with the sorrows of life coupled with the gloom and pain associated with the illusion of death!

Since The Boundless Cosmic Essence, is the source from which all things came and the sink to which all things must return, It is also beyond all perception and; therefore, Nameless! Since it is One and All, It has no reference point with respect to which It can answer Its Eternal Questions: “Who am I? “ ”What am I?”, “ From whence did I come?” and “Where shall I go?” It cannot answer “I am That” because it is ‘That’, It cannot

answer “I am This” because It is ‘This’; Indeed, It can only Eternally say: “I am that I am!” So great is Its desire to know Itself that It timelessly gave birth to an Eternal Cosmos which is cyclically creating and annihilating countless Universes to serve as a representative of Itself that can be perceived, comprehended, and understood by a specially conditioned aspect of the Eternal Physical Cosmos known as the Spirit of Mankind embodied in evolving Cosmic Soulmate Pairs.

A Universe is the stage upon which the soulmate pairs of Cosmic Man evolve. In early stages of their spiritual development, they may evolve through many lifetimes separately while constantly seeking for each other (indeed, when everything is considered, this is the cause of all Cosmic Evolutionary Action). During later, and more advanced stages, they often evolve together with the masculine and feminine aspects in separate bodies, and finally both aspects may choose to evolve as an hermaphrodite; indeed, the choice is theirs. In spirit, however, soulmate pairs are eternally one and all ‘illusionary separations’ are for the purposes of learning through the duality of the experiences of life.

The purpose of ‘Cosmic Man’, evolving as Soulmate Pairs, is to help the Cosmic Essence answer Its Eternal Questions by bringing consciousness to the unconscious actions of the Cosmos, and awareness to that which is unaware by dissipating the Darkness of Ignorance, hate and intolerance with the Light of Knowledge, Love and Understanding. Thus, from the beginning of their unfoldment into consciousness, each and every soulmate pair are being relentlessly inspired, by the Spirit of the Cosmic Essence within them, to develop their personal Cosmology that lovingly describes Its wondrous Cosmos physically, mentally, and spiritually, from their own unique points of view, while encompassing Its entire cosmic domain of action microscopically and macroscopically! All of the evolving world views of each unique soulmate pair must have the dual structure shown in Figure (1.1).

The Cosmic Essence, the unknowable cause that is within all things centering them and without all things enfolding them, created the Cosmos as an infinitely diversified tangible representation of Itself, so that by ‘inspiring’ each evolving soulmate pair to perceive the Cosmos from an uncountable number of points of view, It became possible to endlessly evolve and expand the answers to Its most eternal question: “Who am I?” Indeed, the enormous diversity of living entities, which

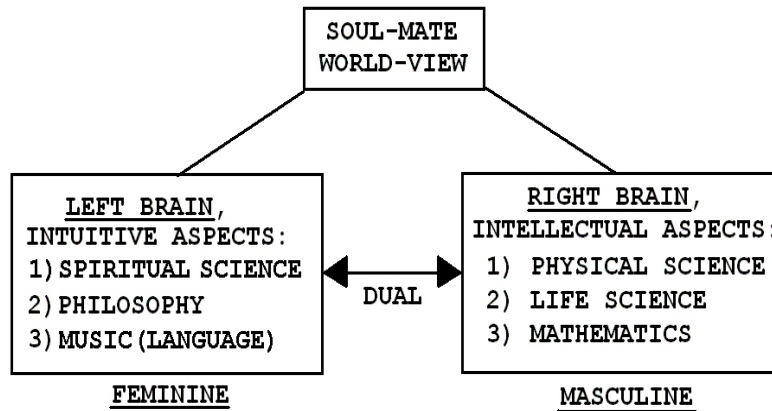

Figure (I.1)

make up the body of the Cosmos, are a direct consequence of the uncountable number of ‘points of view’ expressed by the Spirits that have incarnated into them and are learning and evolving through them. One of our fundamental postulates states that:

Diversity is a foundation stone of nature because only through diversity can experience be maximized and consciousness reach its pinnacle through the development of Cosmic Awareness.

Each Soulmate pair began its long evolutionary journey in a state of awareness that was similar to that which the Cosmic Essence experienced before It created Its Representative God the Cosmos. This state, which initiates the evolution of the soulmate pair, is directly analogous to the state that you experience when you are soundly asleep and not dreaming; such a state is perhaps the closest perceivable thing to absolute oblivion.

When you begin to dream, the feeling of oblivion is dispersed and you become conscious of the ‘action’ generated in your mind by your unconscious thoughts. In the same way, by analogy, the Cosmos is a dream of The Cosmic Essence. Each soulmate pair is an aspect of The Cosmic Essence observing Its Cosmos from their unique point of view in

the same way that a few people are able to observe their dreams. It is only by observing, experiencing, and living in awe and wonder of their sublime Cosmos, that Soulmate pairs are able to develop their unique cosmological models that praises the glory of The Cosmic Essence and help It to evolve Its ability to answer Its eternal questions: “Who am I?”; “Why am I?”; “From whence did I come?”; and “Where shall I Go?”

You can never truly praise and glorify that which you do not comprehend and understand. The purpose of all creation is to praise, honor, and glorify The Nameless One through experiencing the awesome wonders of Its creation. In the final analysis, this can only be done in the process of developing your personal unique model of the Cosmos and; consequently, fulfilling the purpose for which you were created.

The main purpose of this series of articles is to stimulate you to consciously begin the development of your personal cosmology by utilizing all of the powers of your conscious, subconscious and super-conscious minds. Each concept that we present to you will, of course, be expressed in terms of our personal cosmology and we ask that you do not accept it as a part of your cosmology until after you have tested it with respect to the knowledge, wisdom, and understanding that you have already accumulated from your evolutionary experience in many previous lifetimes and your present incarnation. In other words, subject every thing that we tell you to deep thought, contemplation, and meditation.

Finally, in response to your profound meditations upon each concept, The Nameless One will inspire you to either accept or reject it, or guide you in modifying it in order to make it compatible with your personal cosmology which will ultimately bring you into full accord with the Cosmos and Oneness with The Cosmic Essence. As Hermes suggested:

Pure philosophy is spiritual striving, Through constant contemplation, to obtain true knowledge of Atum, the One-God.(2)

The very essence of spiritual evolution is learning through the sublime experiences of life, in all of its agony and ecstasy, under the inspiration and guidance of The Cosmic Essence which, in ancient times, was referred to as ‘Yahweh’, The Nameless One. It follows then, that knowledge learned from books, lectures and visual presentations, which

is not corroborated by the experiences of life and confirmed by the inspiration, love and light of The Cosmic Essence, is of no value to your evolutionary progress. Your life today, and your many lifetimes in the past are all wonderful opportunities which your Spirit has been given in order to continue the unfoldment of its divinity. ***Therefore, live to fulfill your purpose of praising our beloved Cosmic Essence with all of your heart, mind and soul. In praising It, we are also praising ourselves, to glorify It, we are glorifying ourselves because, in the final analysis, we are It and It is us!!***

PHASES OF THE ACTION CYCLE OF EVOLUTION.

From the point of view of our model, everything in the Cosmos which can be perceived, and consequently distinguished, has a masculine aspect which is balanced by a feminine aspect while each is eternally being centered from within, and bounded at infinity from without, by the Neutral Action of the Cosmic Essence. This includes not only physical things but spiritual things as well as all complete creative thoughts and imaginations that have the potential of being converted into physical representations of themselves. One of the most important creative thoughts of The Cosmic Essence, which physically represents itself very soon after the beginning of every universe, is the action cycle of the spiritual evolution of life which has a positive feminine phase, that is dominated by feminine aspects and actions, and a negative masculine phase, that is dominated by masculine aspects and actions. It must be remembered, that every created thing has within itself both masculine and feminine aspects and actions; consequently, when we specify a thing as ‘masculine’ we mean that its masculinity is dominant; whereas, when we specify a thing as ‘feminine’, we mean that its femininity is dominant.

Primitive spirits begin their evolution in the negative phase because they must first experience the darkness of ignorance, and the pain of being separated from The Cosmic Essence, before they can evolve toward being able to appreciate the awe and wonder of Its glorious Cosmos and experience the bliss and Oneness of Its Light and Love! The negative phase is an intimate part of the cycle of spiritual evolution and it must be experienced by everyone before they can expand their Consciousness from the Darkness of Materialism into the Light of Spirituality.

The dark negative phase of the cycle, which is dominated by Masculine Gods, is negative in every way: War, famine, pestilence, wanton killing, and the suppression of the female aspect are most prevalent in the phase of darkness where ignorance, deceit, hypocrisy in religion, and rank materialism are all motivated and exasperated by primitive animal emotions. Those evolving during the dark phase live in fear of others and of themselves. Indeed, they believe that they must protect themselves, from ridicule and retaliation, by hiding their true nature; thus, they can only be characterized as ‘false pretenders’!

They act out roles, which portray themselves as they would like to be seen by others. Simultaneously, they suppress their true nature, which they often disdain, to such a great extent that it leads to various degrees of insanity; this, in turn, leads to all of the diabolical acts of man against man and man against nature that is so common all over the world today. On the other hand, the light phase of the cycle, which is dominated by the feminine Goddesses of Life, is characterized by all of the most wonderful positive actions of love in the Cosmos that are the exact opposites of everything that is experienced in the dark negative phase dominated by the masculine Gods of War.

One cycle of the evolution of the human spirit on earth is illustrated in Figure (1.2). The period of the cycle is nearly the same as that of the procession of the equinoxes. This is not an accident or a coincidence but it is a consequence of the flow of Cosmic Life Energy which is precisely synchronized with the life cycles of the earth; however, it is totally unrecognized by the physical scientists of earth because it is not accessible to their ‘Scientific Method’.

The negative phase and the positive phase each last about twelve thousand years; however, the transition between the phases is centered by a neutral action point which is timeless! We are now about five hundred years into the transition which takes us from the masculine dominated phase of darkness to the dawning of the feminine dominated phase of light. This transition process is now underway on earth and mankind has now reached the timeless neutral action point! During each transition between phases, the surface of the earth is transformed by what appears to be a series of natural catastrophic events, that bring about the regeneration of our earth’s biosphere. Global Warming, ice-cap melting, the increasing frequency and intensity of earthquakes, volcanic activity,

tropical storms, and the possibility of rapidly entering a new ice age, implies that our beloved Mother Earth, working hand-in hand with her soulmate, our wondrous Sun-God, has already initiated the re-terra-forming process that always takes place during the transformation between phases of the cycle of spiritual evolution on earth!

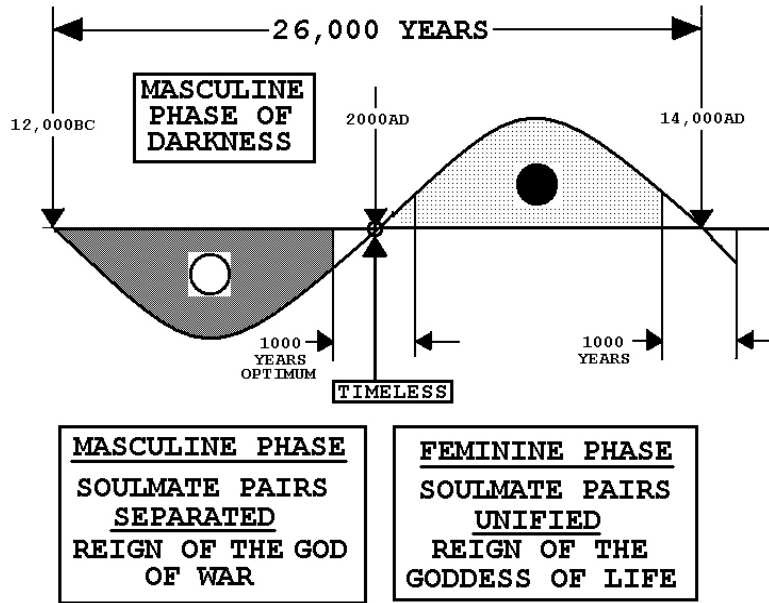

Figure (I.2)

The present transition in phase from darkness to light is a repeat of the one that occurred on earth 26,000 years ago. At that time the previous great Age of Light began and, after evolving upwards in Consciousness for 6000 years, reached a very high level of Unified Physical and Spiritual Science together with the simultaneous development of a world-wide civilization which was qualified to interact with universes at higher levels of Light Density. During the next 6000 years, it gradually decayed into materialism and was destroyed by the last re-terra-forming of the earth's surface during the transition from Light to Darkness that occurred 14,000 years ago. The memory of its greatest civilization, Atlantis, has been prevalent in human mythology throughout the last 12,000 years.

Very soon now, the memory of Atlantis and the other great civilizations that were in Egypt, Greece, China, India, Europe, Asia, and parts of the Americas that were above ocean water, will again be vividly remembered when one of the three time-capsules that they left behind are released to the public. The time capsule, that was buried in Egypt, was discovered several years ago, however, the enormous revolution that would erupt, when it comes to light, will force the revision of all of the world's history and scientific knowledge; along with the elimination of cults, creeds, religions and all other unsubstantiated belief systems. All of this is horrifying to Scientists, Historians, Archeologists, Egyptologists, spiritual leaders, politicians, and industrial leaders who presently control the people's minds by keeping them in ignorance, and the world's purse strings to keep a large percentage of humanity weak and impoverished. Thus, they are fighting hard to keep the Time Capsule of Atlantis hidden as long as possible! It is imperative that they not be allowed to be victorious in this because the time left to bring about the expansion in human consciousness on earth, that is now urgently required by the Cosmic Essence, is running out! The choices that people make now, under these conditions, are the major factors in the equation.

The ancient Egyptians were very familiar with the Cycle of Mankind's Spiritual Evolution on Earth and they told the Greeks about it: Plato reported that Solon, of Athens, had visited Egypt around 590 B. C. While conversing with the priest at the temple of Neith, in Sais, which was the capital of Egypt at that time; he was told emphatically that the last great deluge, which destroyed civilization, had occurred around 9,600 B.C. Which is nearly 12,000 years before our time. Since Archeologists and Egyptologists refuse to believe this, they have even gone so far as to accuse Plato and Solon of incorrectly relating their units of measuring time to those of the Egyptians. Plato said himself that compared to the Egyptians, the knowledge which Solon had pertaining to the very ancient history of the world was virtually insignificant:

“O Solon, Solon, you Greeks are but children,” said one of the priests, who was of a very great age. Upon hearing this, Solon said, “What do you mean?” The Egyptian replied, “I mean to say, that in mind you are all young; there is no old opinion handed down among you by ancient tradition; nor any science that is hoary with age. And I will tell you the reason for this. There have been, and there will be again, many destructions of mankind arising out of many causes; and the greatest

have been brought about by the agencies of fire and water; and there have been lesser ones by innumerable other causes.” (3)

In fact, the ruins of the last great civilization are spread all over the surface of the earth, and under the sea; scientists are stumbling all over them without realizing what they are (or ignoring their implications)! Just consider for a moment the gigantic stone structures around the world, which archeologist cannot explain, such as the cut and dressed 1000 ton stone blocks of Baalbek in Lebanon, the Gateway of the Sun at Tiahuanaco and Puma Punku in South America, and the megalithic ruins in Europe. These are all remains of the cosmically assisted evolution of the last world-wide civilization that dominated the earth before the beginning of the most recent dark phase that is now in the process of terminating.

In Figure (1.2), we also illustrate that the dark negative masculine phase is not all darkness and the positive feminine phase is not all light; in other words, in the negative phase the darkness is dominant while the light is recessive and in the positive phase the light is dominant while the darkness is recessive. All during the negative phase knowledge of the true nature of the Cosmos, and the Light and Love of The Cosmic Essence, have always been maintained on earth by a few highly evolved teachers of light and their disciples. Also, the esoteric teachings of the high Masters of Light remain intact and unpolluted throughout the dark phase. All of this, and much more, are going to be thoroughly analyzed and discussed in the continuation of this series of articles and in advanced papers that will be appearing on our website (4) that will keep the reader informed of continuous advances in the dynamic evolution of our Soulmate Cosmology through which we are experiencing, from moment to moment, the Bliss of Cosmic Oneness enfolded in the awesome Light and Love of the Cosmic Essence.

Now the time has come once again for mankind to earn the right to have Cosmic Assistance while passing through the timeless neutral action transition point that divides the phase of darkness from the phase of light. The only possible way to accomplish this is for the nations of the world to immediately begin educating all of their children holistically, starting from the cradle to the grave! Once the divine potentials of the people have been released, they will take care of the rest!! Failing to do this, in the quite short time that remains, will force God the Cosmos to allow

mankind's cycle of evolution to normally continue the re-terra-forming of the surface of the earth which has already started and will result in the temporary suspension of human life on earth until the re-terra-forming process has been completed and the earth has prepared itself for the new age of Light that is destined to come.

The reason why the neutral action cross-over point is timeless has to do with the fact that re-terra-forming may require several thousand years! The length of time needed is critically dependent upon the choices that are made by the people and the manner in which they are carried out. If mankind could qualify for help from The Cosmic Hierarchy, then they would not have to go through this transition blind and without higher guidance. The Cosmic Hierarchy is an inter-dimensional organization of Conscious Energy and Intelligence which is so enormous that we are totally at a lost of even how to begin to describe it!! The physical and spiritual evolution of all Cosmic Mankind is under Its guidance and control; for them, anything that can be thought can be immediately done. However, all of their evolutionary actions are under the strict control of the Three Great Cosmic Laws and their corollaries as they have been defined by the Cosmic Essence.

Now, not only is the Cosmic Essence giving humanity of earth the choice to immediately begin educating their children holistically, It has helped us to synthesize, from mankind's accumulated knowledge, the holistic language that is required to do so! We had to do this with the resources that have been developed here on earth because it would be a great violation of the laws, which control the spiritual evolution of man in planetary systems, for a more evolved world to interfere with the process of consciousness expansion in a less evolved world. The consequences of violating these laws are so catastrophic that no evolved world would ever dream of doing so.

Thus, we are ready to help humanity develop the Holistic System of Education that the children of the world now urgently require because we have established the foundation for it on earth, under the loving inspiration and guidance of our Spirits, who are an intimate part of the Cosmic Essence, without any assistance from higher levels of consciousness! Only in this manner will they be able to release their awesome divine potentials, expand their consciousness through the Love of Pure Learning and obtain knowledge, wisdom, and understanding

under the profound guidance and inspiration of the Cosmic Essence who centers them from within and enfolds them from without. Since each and every evolving human being is a God in the Making with all of the powers of the Cosmos accessible to them, they have everything that they need to develop their personal cosmologies and make their unique contributions toward Eternally Expanding the Consciousness of the Cosmic Essence.

THEREFORE; THIS CHOICE IS NOW BEING GIVEN, FOR THE VERY LAST TIME, SO THAT NO ONE WILL BE ABLE TO SAY: “WHY WERE WE NOT WARNED!?! WHY WERE WE NOT GIVEN THE OPPORTUNITY TO PARTICIPATE IN THE TRANSFORMATION OF OUR CONSCIOUSNESS AND, PERHAPS, BE ABLE TO AT LEAST LESSEN SOME OF THE DISASTROUS CONSEQUENCES OF RE-TERRA-FORMING THE EARTH’S SURFACE!?!”

DUE TO THE ABSOLUTE LAW OF ONENESS, WHICH INCLUDES THE CONSERVATION OF ENERGY AND CONSCIOUSNESS, THERE IS NO SUCH THING AS DEATH!! INDEED, DEATH IS, WITHOUT QUALIFICATION, THE MOST WONDERFUL OF ALL OF MANKIND’S LEARNING EXPERIENCES BECAUSE IT ESTABLISHES THE REFERENCE POINT, WITH RESPECT TO WHICH, THE INDESCRIBABLE BLISS OF LIVING ETERNALLY IN THE AWESOME LOVE AND LIGHT OF THE COSMIC ESSENCE CAN BE FULLY COMPREHENDED INTELLECTUALLY, AND APPRECIATED INTUITIVELY, WITH THE DEEPEST HEARTFELT EMOTIONS OF ETERNAL JOY!

HUMANITY, THE CHOICE IS NOW YOURS!

To be continued in part 2.
